

IT'S TIME TO THINK OF TOMORROW

The decision about how to receive a personal physical injury settlement often comes with many options. While it may be tempting to take an immediate, lump-sum payment and invest the settlement yourself, there are tax consequences and income needs to be considered.

A Structured Settlement from Pacific Life & Annuity is An Option That Can Offer:

- **An income-tax-free series of payments.**

A qualifying structured settlement of damages received for a personal physical injury provides you with an ongoing stream of payments that is free from federal and state income tax.¹ Because the payment is not taxed, payments from a structured settlement may be higher than if you invest your settlement money in a taxable account.

- **A guaranteed, steady stream of payments.** Structured settlements are calculated to provide a stream of payments based on the amount of the settlement, the current rate of return, and the payment schedule on which you decide. So, no matter how volatile the financial markets may be, you'll be able to plan for your needs based on a predictable, long-term stream of payments.

When discussing a payment schedule with your structured settlement consultant, consider the following:

- A Pacific Life & Annuity structured settlement provides payments that last as long as you need to help replace lost earnings, pay for ongoing medical expenses, or provide for a loved one.
- You may defer payments for specified time frames to help pay for future needs such as college education.
- A structured settlement annuity allows you to set aside lump-sum payments for large purchases such as remodeling your home or buying a car.

All guarantees are subject to the claims-paying ability and financial strength of the issuing insurance company.

¹Excludable from gross income under Internal Revenue Code (IRC) 104(a)(1) or (2).

FACTORS TO CONSIDER

WHEN SELECTING A STRUCTURED SETTLEMENT PROVIDER

- The quality and diversification of the annuity provider's investment portfolio.
- The level of the insurer's capital and surplus.
- Financial-strength ratings.
