NOTES TO FINANCIAL STATEMENTS

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND GOING CONCERN

A. Accounting Practices:

Pacific Life Insurance Company (the Company or Pacific Life) prepares its financial statements based on accounting practices prescribed or permitted by the Nebraska Department of Insurance (NE DOI). The National Association of Insurance Commissioners' (NAIC) *Accounting Practices and Procedures Manual* (NAIC SAP) has been adopted as a component of prescribed or permitted practices by the NE DOI. Prescribed statutory accounting practices include state laws and regulations. Additionally, the Director of the NE DOI has the right to permit other specific practices, which deviate from prescribed practices.

Pursuant to Interpretation of the Statutory Accounting Principles Working Group (INT) 20-10, non-conforming credit tenant loans (CTLs) that were filed with the NAIC Securities Valuation Office (SVO) by February 15, 2021 were permitted to be reported on Schedule D-1 for year end 2020. As these permitted practices are promulgated by the NAIC, they are not NE DOI permitted practices as authorized by the Director of the NE DOI. However, per INT 20-10, any such non-conforming CTL shall be detailed in Note 1 as a permitted practice, with two separate entries that detail non-conforming CTLs that were reported on Schedule D-1 on one line, and non-conforming CTLs that were not reported on Schedule BA-1 on a separate line within the table detailing practices prescribed and permitted.

For the annual reporting period ending December 31, 2020, the Company had two non-conforming CTLs reported on Schedule D-1 in accordance with the limited time exception provided in INT 20-10. As the SVO-issued designations had not yet been received, these CTLs were reported with credit rating provider ratings that reflected equivalent NAIC 1 designations. The impact to Schedule D-1 for these non-conforming CTLs was an increase in Schedule D-1 holdings of $45 million as of December 31, 2020. The net impact of this provision to statutory surplus and net income (loss) is zero because the increase in investments reported on Schedule D-1 was offset by a reduction of investments reported on Schedule BA-1. As of December 31, 2021, there were no non-conforming CTLs.

The following table reconciles the Company's net income for the years ended December 31, 2021 and 2020 and statutory surplus as of December 31, 2021 and 2020, between NAIC SAP and practices prescribed and permitted by the NE DOI:

B. Use of Estimates in the Preparation of the Financial Statements:

The preparation of financial statements in conformity with accounting practices prescribed or permitted by regulatory authorities requires management to make estimates and assumptions that affect the reported amounts of admitted assets and liabilities. It also requires disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

C. Accounting Policies:

Life insurance premiums are recognized as income when due from the policyholder under the terms of the insurance contract. Premiums for flexible premium products are recognized when received from the policyholder. Annuity considerations are recognized as premiums when received.

Expenses incurred in connection with acquiring new insurance business, including acquisition costs such as sales commissions, are charged to operations as incurred.

Payments received on deposit-type contracts, which do not incorporate any mortality or morbidity risk, are recorded directly to the liability for deposit-type contracts. Interest credited to deposit-type contracts is recorded as an expense in the summary of operations when earned under the terms of the contract.

Other accounting policies used by the Company are:

1. Short-term investments are stated at amortized cost and approximate fair value. Short-term investments include, but are not limited to, bonds and commercial paper whose maturities at the time of purchase were greater than three months and less than or equal to one year. Cash and cash equivalents are stated at amortized cost and approximate fair value. Cash and cash equivalents include money market instruments, cash on deposit and highly liquid debt instruments with maturities of three months or less from purchase date.

2. Bonds not backed by other loans are generally stated at amortized cost using the effective interest method. Bonds, including loan-backed and structured securities (LBASS), with a NAIC designation of 6 are stated at the lower of amortized cost or fair value with changes in fair value recorded in unassigned surplus as a change in net unrealized capital gains (losses) less tax. Perpetual bonds are reported at fair value, not to exceed any current effective call price, with changes in fair value recorded in unassigned surplus as a change in net unrealized capital gains (losses) less tax.

NOTES TO FINANCIAL STATEMENTS

3. Investments in unaffiliated common stocks are valued at fair value with changes in fair value recorded in unassigned surplus as a change in net unrealized capital gains (losses) less tax.

4. Preferred stocks are generally stated at amortized cost. Preferred stocks designated low quality, lower quality and in or near default are stated at the lower of amortized cost or fair value with changes in fair value recorded in unassigned surplus as a change in net unrealized capital gains (losses) less tax. Perpetual preferred stocks are reported at fair value, not to exceed any current effective call price, with changes in fair value recorded in unassigned surplus as a change in net unrealized capital gains (losses) less tax.

5. Mortgage loans on real estate are carried at their unpaid principal balance, net of deferred origination fees and impairment losses. Mortgage loans on real estate do not include accrued interest, which is included in investment income due and accrued. Investment real estate is valued at the lower of depreciated cost or market, less related mortgage debt, cumulative write downs and valuation adjustments. Depreciation of investment real estate is computed using the straight line method over estimated useful lives, which range from 5 to 30 years.

6. LBASS are generally stated at amortized cost using the effective interest method. Income is determined considering anticipated cash flows based on industry prepayment models and internal estimates. These assumptions are consistent with the current interest rate and economic conditions at the time of valuation. For LBASS purchased with high credit quality and fixed interest rates, the effective yield is recalculated on a retrospective basis. For all other LBASS, including those where cash flows are deemed other than temporarily impaired, effective yield is recalculated on a prospective basis.

7. Investments in common stock of subsidiary and controlled affiliated insurance companies are carried at the statutory capital and surplus of the entity. Investments in non-insurance subsidiary, controlled or affiliated entities (SCA) are carried at the audited, generally accepted accounting principles in the United States of America (U.S. GAAP) equity of the investee, with adjustments taken based on statutory principles of accounting when required.

   The carrying value of non-insurance SCA's where an audit was not performed are nonadmitted.

   Investments in affiliated bonds are generally valued at amortized cost except those with an NAIC designation of 6, which are reported at the lower of amortized cost or fair value. Investments in affiliated mutual funds are carried at fair value.

8. The Company generally carries its investments in joint ventures, partnerships and limited liability companies based on the underlying audited equity of the investee as determined in accordance with U.S. GAAP. These investments include affiliated companies as well as those where the Company has minor ownership interests.

9. The Company applies hedge accounting as prescribed by Statement of Statutory Accounting Principles (SSAP) No. 86, *Derivatives*, by designating derivative instruments as either fair value or cash flow hedges on the inception date of the hedging relationship. At the inception of the hedging relationship, the Company formally documents its risk management objective and strategy for undertaking the hedging transaction. In this documentation, the Company specifically identifies the asset, liability, firm commitment, or forecasted transaction that has been designated as the hedged item and states how the hedging instrument is expected to hedge the risks related to the hedged item. The Company formally assesses and measures effectiveness of its hedging relationships both at the hedge inception date and on an ongoing basis in accordance with its risk management policy.

   Derivative instruments used in hedging transactions that meet the criteria of a highly effective hedge are considered effective hedges and are reported in the financial statements in a manner consistent with the hedged asset or liability (amortized cost or fair value). Changes in the carrying value of derivatives that qualify for hedge accounting are recorded consistently with how the changes in the carrying value of the hedged asset or liability are recorded.

   To the extent the Company chooses not to designate a derivative as a hedge or the designated derivative no longer meets the criteria of an effective hedge, the derivative is accounted for at fair value with changes in fair value recorded in unassigned surplus as a change in net unrealized capital gains (losses) less tax and any change in fair value attributable to changes in foreign exchange rates are reflected as adjustments to unassigned surplus as a change in net unrealized foreign exchange capital gain (loss) consistent with the hedged items. When these derivative instruments are terminated, the gains and losses are reported as net realized capital gains (losses) less tax.

   Carrying value is calculated based on the gross derivative asset or liability position. If the carrying value of the derivative is positive, the amount is recorded in assets, derivatives. If the carrying value of the derivative is negative, the amount is recorded in liabilities, derivatives. The Company’s receivable for the return of cash collateral pledged is recorded in assets, aggregate write-ins for invested assets. The Company’s obligation to return cash collateral received is recorded in liabilities, aggregate write-ins for liabilities.

   Gains and losses on terminated derivative instruments that are hedging bonds are subject to the Interest Maintenance Reserve (IMR). Gains and losses on terminated forward starting swap positions that are hedging anticipatory purchases of bonds are deferred to unearned investment income if the effective date of the forward starting swap is beyond the current fiscal year. Once the effective date is within the current fiscal year, the gains and losses are transferred from unearned investment income to the IMR. Gains and losses on terminated derivative instruments that are hedging the surplus notes are recorded directly to surplus as a change in aggregate write-ins for other than special surplus funds and amortized as an increase in net investment income over the life of the surplus notes utilizing the effective interest method.

   Periodic net settlements on derivatives designated as hedges are recorded on an accrual basis consistent with the hedged items. Periodic net settlements on derivatives not designated as hedging are recorded on an accrual basis in net investment income.

10. The Company does not utilize anticipated investment income as a factor in premium deficiency calculations for accident and health contracts and property and casualty contracts.

11. The accident and health business is assumed via reinsurance where the reserves are client reported.

12. The Company has not modified its capitalization policy from the prior year.

13. The Company does not have any pharmaceutical rebates receivable.

D. Going Concern: The Company is not aware of any current situation or event that would cause substantial doubt about its ability to continue as a going concern.

NOTES TO FINANCIAL STATEMENTS

2. ACCOUNTING CHANGES AND CORRECTIONS OF ERRORS

Effective January 1, 2021, the Company adopted revisions to SSAP No. 86, *Derivatives*, to ensure reporting consistency for derivatives with financing components. A financing derivative is one which the premium to acquire the derivative is paid throughout the derivative term, or at maturity. The revisions require that at acquisition and subsequently, the gross reported fair value of the derivative shall exclude the impact of the financing premiums and the premiums payable shall be separately reported as payable for securities. The impact of the adoption on January 1, 2021 was an increase to Derivatives (page 2, line 7) of $330 million, an increase to Investment Income Due and Accrued (page 2, line 14) of $290 million and an increase to Payable for Securities (page 3, line 24.09) of $621 million.

Effective January 1, 2021, the Company adopted SSAP No. 26R, *Bonds*, and SSAP No. 32R, *Preferred Stock*, which clarified the valuation and measurement for perpetual bonds and stocks held as investments. Perpetual bonds and preferred stocks, previously reported at amortized cost, shall now be reported at fair value, not to exceed any current effective call price, with changes in fair value recorded in unassigned surplus as a change in net unrealized capital gains (losses) less tax. The impact of this adoption on the Company's financial statements was immaterial.

Variable annuity contracts are subject to Actuarial Guideline 43 (AG43) and the Valuation Manual section VM-21 (VM-21). As a result of updates to AG43 and VM-21, effective January 1, 2020, for all variable annuity contracts, $239 million of reserves were released with an offsetting adjustment in surplus, change in reserve on account of change in valuation basis, (increase) or decrease (page 4, line 43).

For the annuity business retroceded by Pacific Life Re Limited (PLRL), a wholly-owned subsidiary of Pacific LifeCorp, the age calculation methodology was changed from an age last birthday approach to an age nearest birthday basis, which is consistent with the development of the prescribed valuation mortality tables. As a result of this change, effective January 1, 2020, $102 million of aggregate reserves were released with an offsetting adjustment in surplus, change in reserve on account of change in valuation basis, (increase) or decrease (page 4, line 43).

The Company has a reinsurance agreement with Pacific Life Re Global Limited (RGBM), a wholly-owned, indirect subsidiary of Pacific LifeCorp domiciled in Bermuda, whereby the Company retrocedes statutory reserves for a majority of the underlying Yearly Renewable Term (YRT) treaties on a 100% coinsurance with funds withheld basis to RGBM. During the year ended December 31, 2020, the Company determined that, since inception of the agreement in 2011, reinsurance premiums retroceded by the Company to RGBM had been calculated and retroceded based on gross written premiums received by the Company, rather than earned premiums as defined in the reinsurance agreement. The impact of this correction, net of tax, as of December 31, 2020 was a decrease to aggregate write-ins for gains and losses in surplus (page 4, line 53) of $44 million.

3. BUSINESS COMBINATIONS AND GOODWILL

The Company did not participate in business combinations or record goodwill.

4. DISCONTINUED OPERATIONS

The Company had no discontinued operations.

5. INVESTMENTS

A. Mortgage Loans, Including Mezzanine Real Estate Loans

1. The maximum and minimum lending rates for new mortgage loans during 2021 were:

		1. Less than 12 Months	$3,882,929,589
		2. 12 Months or Longer	875,262,963

NOTES TO FINANCIAL STATEMENTS

5. Additional Information: OTTI evaluation is a quantitative and qualitative process subject to significant estimates and management judgment. The Company has controls and procedures in place to monitor securities and identify those that are subject to greater analysis for OTTI. The Company has an investment impairment committee that reviews and evaluates investments for potential OTTI at least on a quarterly basis.

   In determining whether a decline in value is other than temporary, the Company considers several factors including, but not limited to the following: the extent and duration of the decline in value, the reasons for the decline (credit event, currency or interest rate related including spread widening), the Company's inability or lack of intent to retain the investment for a period of time sufficient to recover the amortized cost basis and the performance of the security's underlying collateral and projected future cash flows. In projecting future cash flows, the Company incorporates inputs from third-party sources and applies reasonable judgment in developing assumptions used to estimate the probability and timing of collecting all contractual cash flows.

E. Dollar Repurchase Agreements and/or Securities Lending Transactions

1. The Company participates in a securities lending program administered by an authorized financial institution whereby certain investment securities are loaned to third parties. With respect to securities loaned, the Company requires initial cash collateral equal to a minimum of 102% of the fair value of domestic securities loaned. The Company monitors the fair value of securities loaned with additional collateral obtained as necessary. The borrower of the loaned securities is permitted to sell or repledge those securities. The Company records an offsetting liability in payable for securities lending on Page 3 – Liabilities, Surplus and Other Funds. The Company may occasionally borrow amounts from the cash collateral for short-term liquidity for general corporate purposes and, as such, does not include those amounts in Schedule DL. As of December 31, 2021, borrowings from the securities lending cash collateral was zero.

2. The Company did not have any pledged assets as collateral for securities lending transactions or dollar repurchase agreements.

   2. The Company did not have any cash collateral reinvested from dollar repurchase agreements.

   b. To manage the mismatch of maturity dates between the security lending transactions and the related reinvestment of the collateral received, the Company reinvests in highly liquid assets with a minimum 20% of invested cash collateral assets maturing within 30 days and the remaining invested cash collateral maturing within 95 days. Effective May 2021, the maximum maturity for reverse repurchase agreements has been amended to 90 days.

NOTES TO FINANCIAL STATEMENTS

6. The Company has not accepted collateral that is not permitted by contract or custom to sell or repledge for the reporting period.

7. The Company does not have any collateral for securities lending transactions that extend beyond one year from December 31, 2021.

F. The Company did not have any repurchase agreements transactions accounted for as secured borrowing.

G. Reverse Repurchase Agreements Transactions Accounted for as a Secured Borrowing:

1. The Company entered into a short-term reverse repurchase agreement and also invests cash collateral received into reverse repurchase agreements as part of its securities lending program. The Company requires that all reverse repurchase agreements must be collateralized by U.S. Treasury Securities, U.S. Agency Securities, U.S. Corporate bonds and/or U.S. Equities with a minimum margin of 102%. For the securities lending program, reverse repurchase agreements have a maximum maturity of 95 days and are indemnified by the Company's securities lending agent against counterparty default. Effective May 2021, the maximum maturity for reverse repurchase agreements has been amended to 90 days. When counterparty default and price movements of the collateral received present the primary risks for repurchase agreements, the Company mitigates such risks by mandating short maturities, applying proper haircuts and monitoring fair values daily.

6. JOINT VENTURES, PARTNERSHIPS AND LIMITED LIABILITY COMPANIES

A. The Company does not have investments in joint ventures, partnerships and limited liability companies that exceed 10% of admitted assets.

B. For impaired investments in joint ventures, partnerships and limited liability companies, the Company recorded write downs of $10 million on 6 investments and $10 million on 5 investments based upon lower estimated future cash flows during 2021 and 2020, respectively.

7. INVESTMENT INCOME

A. The Company accrues interest income on impaired loans to the extent it is deemed collectible. If any interest income due and accrued is deemed uncollectible, interest accrual ceases and previously accrued amounts are written off. Accrued interest income more than 180 days past due deemed collectible on mortgage loans in default is nonadmitted. All other investment income due and accrued with amounts over 90 days past due is nonadmitted.

B. There was no investment income due and accrued excluded from surplus.

8. DERIVATIVE INSTRUMENTS

A. Derivatives Under SSAP No. 86, *Derivatives*

1. Market risk is the possibility that future changes in market conditions may make the derivative financial instrument less valuable. Credit risk is defined as the possibility that a loss may occur from the failure of another party to perform in accordance with the terms of the contract, which exceeds the value of existing collateral, if any. The Company mitigates these risks through established market and credit risk limits.

2. The Company primarily utilizes derivative instruments to manage its exposure to interest rate risk, foreign currency risk and equity risk, collectively “market risk”, and credit risk. Derivative instruments are also used to manage the duration mismatch of general account assets and liabilities. Derivatives may be exchange-traded or contracted in the over-the-counter (OTC) market. The Company’s OTC derivatives are primarily bilateral contracts between two counterparties. Certain of the Company’s OTC derivatives are cleared and settled through central clearing counterparties. The Company utilizes a variety of derivative instruments including swaps, exchange-traded futures and options. See Note 16.

Fair Value Hedges

The Company offers life insurance products with indexed account options. The interest credited on the indexed accounts is a function of the underlying domestic and/or international equity index, subject to various caps, thresholds and participation rates.

The Company utilizes equity call options to hedge the credit paid to the policyholder on the underlying index for its life insurance products with indexed account options. These equity call options are contracts to buy the index at a predetermined time at a contracted price. The contracts will be net settled in cash based on differentials in the index at the time of exercise and the strike price subject to a cap, net of option premiums. These equity call options are designated as a fair value hedge under statutory accounting principles with changes in fair value recorded in net realized capital gains (losses).

Cash Flow Hedges

The Company utilizes foreign currency interest rate swap agreements to convert fixed or floating foreign denominated liabilities to U.S. dollar fixed liabilities. A foreign currency interest rate swap involves the exchange of an initial principal amount in two currencies, and the agreement to re-exchange the currencies at a future date, at an agreed-upon exchange rate. There are also periodic exchanges of interest payments in the two currencies at specified intervals, calculated using agreed-upon interest rates, exchange rates, and the exchanged principal amounts. The Company enters into these agreements primarily to manage the currency risk associated with investments and liabilities that are denominated in foreign currencies. The main currencies swapped that the Company has designated as cash flow hedges are the British pound and the Swiss franc.

The Company also utilizes interest rate swaps to hedge against reinvestment risk embedded in products with long durations. An interest rate swap agreement involves the exchange, at specified intervals, of interest payments resulting from the difference between fixed rate and floating rate interest amounts calculated by reference to an underlying notional amount. Generally, no cash is exchanged at the outset of the contract and no principal payments are made by either party.

NOTES TO FINANCIAL STATEMENTS

Derivatives Not Designated as Hedging Instruments

The Company offers a rider on certain variable annuity contracts that guarantees net principal over specified periods, as well as riders on certain variable annuity contracts that guarantee a minimum withdrawal benefit over specified periods, subject to certain restrictions.

The Company utilizes total return swaps, exchange-traded futures and equity put options based upon domestic and international equity market indices to economically hedge the equity risk of the guarantees in its variable annuity products. Total return swaps are swaps whereby the Company agrees to exchange the difference between the economic risk and reward of an equity index and a floating rate of interest, calculated by reference to an agreed upon notional amount. Cash is paid and received over the life of the contract based on the terms of the swap. In exchange-traded futures transactions, the Company agrees to purchase or sell a specified number of contracts, the values of which are determined by the underlying equity indices, and to post variation margin on a daily basis in an amount equal to the change in the daily fair value of those contracts. The equity put options involve the exchange of an upfront payment for the return, at the end of the option agreement, of the equity index below a specified strike price. The Company also utilizes interest rate swaps to manage interest rate risk in the variable annuity products.

The Company offers fixed indexed annuity products where interest is credited to the policyholder's account balance based on domestic and/or international equity index changes, subject to various caps or participation rates. The Company utilizes total return swaps, exchange-traded equity futures and equity call options based upon market indices to economically hedge the interest credited to the policyholder based upon the underlying equity index. These equity call option contracts involve the exchange of an upfront premium payment for the return, at the end of the option agreement, of the differentials in the index at the time of exercise and the strike price subject to a cap.

Interest rate swaps are used by the Company to reduce market risk from changes in interest rates and other interest rate exposure arising from duration mismatches between assets and liabilities.

Foreign currency interest rate swap agreements are used to convert foreign-denominated assets or liabilities to U.S. dollar assets or liabilities. The main currencies that the Company economically hedges are the euro, British pound, and Canadian dollar.

3. See Note 1.C.9.

4. The Company has equity call options with premiums which are paid at the end of the derivative contract.

5. $554 million of option premium expense recorded in net investment income for the one-year equity call options hedging life indexed account insurance products was excluded from the assessment of hedge effectiveness. For all other hedging relationships, no component of the hedging instrument's fair value was excluded from the assessment of hedge effectiveness.

6. The Company recorded $15 million in unrealized capital gain resulting from derivatives that no longer qualified for hedge accounting.

7. The maximum length of time over which the Company is hedging its exposure to the variability in future cash flows for forecasted transactions is 39 years. The Company may discontinue cash flow hedge accounting because it is no longer probable that the forecasted transaction will occur by the end of the originally specified time period or within two months of the anticipated date. The Company did not have cash flow hedges that have been discontinued.

8. For equity call options with deferred financing premiums which are paid at the end of the derivative contract, summarized in the tables below are the undiscounted future settled premium commitments, equity call option fair value and equity call option fair value excluding impact of discounted future settled premiums:

5. The Company had no investment tax credits.

6. The Coronavirus Aid, Relief and Economic Security Act (the CARES Act), enacted on March 27, 2020, contains certain income tax related provisions. One of the key provisions allows companies with net operating losses (NOL) originating in 2018, 2019 or 2020 to carry back those losses to the five preceding tax years and recover cash taxes paid in those years. The Company recorded a benefit for the carryback of 2020 NOL to the five preceding tax years from 2015 to 2019, some of which were at a higher statutory tax rate than the current year. The benefit was reflected in the Summary of Operations Line 32 (Federal and foreign income taxes incurred) in 2020, with additional adjustment in 2021 based on 2020 tax return as filed.

7. The Company had no adjustments of deferred tax assets (DTAs) and deferred tax liabilities (DTLs) for enacted changes in tax laws or a change in tax status.

8. The Company had no adjustments to gross DTAs because of a change in circumstances that causes a change in judgment about the realizability of the related DTAs.

NOTES TO FINANCIAL STATEMENTS

D. The change in net deferred income taxes is comprised of the following (this is exclusive of nonadmitted assets as the change in nonadmitted assets is reported separately from the change in net deferred income taxes in the surplus section of the Annual Statement):

	December 31, 2021	December 31, 2020	Change
Total Deferred Tax Assets	$1,106,114,323	$963,603,735	$142,510,588
Total Deferred Tax Liabilities	520,163,930	407,081,078	113,082,852
Net Deferred Tax Asset	$585,950,393	$556,522,657	29,427,736
Tax Effect of Unrealized Gains			58,869,600
Change in Net Deferred Income Tax			88,297,336
Tax Effect of Non Operating Deferred Income Tax			0
Change in Net Operating Deferred Income Tax			$88,297,336

The provision (benefit) for federal income taxes incurred is different from that which would be obtained by applying the statutory federal income tax rate to income before income taxes. The significant items causing this difference are as follows:

	December 31, 2021	Effective Tax Rate
Provision Computed at Statutory Rate	$224,712,013	21.00 %
Tax Impact From Affiliates	40,522,811	3.79 %

Taxable Derivative Gains	(43,415,469)	(4.06)%
Other	(2,654,098)	(0.25%)
Total	$114,921,972	10.74 %
Federal Income Taxes Incurred	$203,219,308	18.99%
Change in Net Deferred Income Taxes	(88,297,336)	(8.25%)
Total Statutory Income Taxes	$114,921,972	10.74%

E. Additional Disclosures:

1. The Company had no low income housing and solar energy credit carryforwards.

2. The following are income taxes incurred in the current year that will be available for recoupment in the event of future net losses:

	Ordinary	Capital
2021 Estimated	$0	$0
2020	0	26,815,101
2019	0	42,148,227

3. The Company had no deposits under Section 6603 of the Internal Revenue Code (IRC).

F. Consolidation of Return with Other Entities:

1. The Company's federal income tax return is consolidated with the following entities: Pacific Mutual Holding Company (PMHC), Pacific LifeCorp, PL&A, Pacific Alliance Reinsurance Company of Vermont (PAR Vermont), Pacific Baleine Reinsurance Company (PBRC), Pacific Life Fund Advisors LLC (PLFA) and RGBM.

2. The method of tax allocation between companies is subject to written tax sharing agreements, approved by the Company's Board of Directors. Allocation is based upon separate return calculations with current credit for net losses to the extent utilized in the consolidated return. If the consolidated return has tax losses, intercompany balances are generally settled as refunds are received. If the consolidated return has a tax payable, the intercompany balances are generally settled as paid.

G. The Company had no federal or foreign income tax loss contingencies for which it is reasonably possible that the total liability will significantly increase within 12 months from December 31, 2021.

H. The Company had no liability for Repatriation Transition Tax.

I. The Company had no Alternative Minimum Tax credit carryforward.

NOTES TO FINANCIAL STATEMENTS

10. INFORMATION CONCERNING PARENT, SUBSIDIARIES, AFFILIATES AND OTHER RELATED PARTIES

A-B. The Company provides certain subsidiaries and affiliates with services that are routine in nature. Fees for these services are determined using cost allocations based on U.S. GAAP or a negotiated basis intended to reflect market prices. For additional disclosures, see item F. below. See Schedule Y, Part 2 for other reportable transactions.

PLFA is the investment adviser for the Pacific Select Fund and the Pacific Funds Series Trust. The Pacific Select Fund is the investment vehicle provided to the Company's variable life insurance policyholders and variable annuity contract owners. The Pacific Funds Series Trust is the investment vehicle for the Company's mutual fund products and other funds. Distributions to the Company from PLFA, reflecting net revenues and expenses, net of taxes, are recorded by the Company as net investment income when declared to the extent they are not in excess of undistributed accumulated earnings. Distributions from PLFA to the Company included in net investment income for the years ended December 31, 2021 and 2020 were $119 million and $102 million, respectively. Any undistributed net revenue and expense, net of tax, is recorded directly to surplus.

Pacific Select Distributors, LLC (PSD) primarily serves as the distributor of registered investment-related products and services, principally variable life and annuity contracts issued by the Company and PL&A. In connection with PSD’s distribution of these variable life and annuity contracts to the Company and PL&A, the Company incurred commission expense of $603 million and $449 million during the years ended December 31, 2021 and 2020, respectively. A service plan was adopted by the Pacific Select Fund whereby the Pacific Select Fund pays PSD, as distributor of the funds, a service fee in connection with services rendered or procured for shareholders of the fund or their variable contract owners. These services may include, but are not limited to, payment of compensation to broker-dealers, including PSD itself, and other financial institutions and organizations, which assist in providing any of the services. From these service fees, PSD reimbursed the Company $86 million and $76 million for paying trail commissions on its behalf for the years ended December 31, 2021 and 2020, respectively. PSD also offers limited retail broker-dealer services that include selling variable annuities issued by the Company to customers advised by third party fiduciaries such as trust companies and registered investment advisers. With respect to these sales, PSD acts as the broker-dealer of record for the initial sale, but does not receive commissions.

The Company’s structured settlement transactions are typically designed such that an affiliated assignment company assumes settlement obligations from external parties in exchange for consideration. The affiliated assignment company then funds the assumed settlement obligations by purchasing annuity contracts from the Company. Consequently, substantially all of the Company’s structured settlement annuities are sold to an affiliated assignment company. Included in the liability for aggregate reserves are insurance contracts with the affiliated assignment company with contract values of $2.9 billion and $2.8 billion as of December 31, 2021 and 2020, respectively. Related to these contracts, the Company received $197 million and $305 million of premiums and annuity considerations and paid $183 million and $174 million of current and future policy benefits for the years ended December 31, 2021 and 2020, respectively. In addition, included in the liability for deposit-type contracts are insurance contracts with the affiliated assignment company of $3.3 billion and $3.1 billion as of December 31, 2021 and 2020, respectively.

C. The Company did not have transactions with related parties that are not reported on Schedule Y.

D. As of December 31, 2021 and 2020, the Company reported $1 million, as amounts due from the parent company and the ultimate parent, Pacific LifeCorp and PMHC, and $105 million and $58 million, respectively, due from other affiliated companies. As of December 31, 2021 and 2020, the Company reported $(3) million and $3 million, respectively, as amount due to (from) other affiliated companies. It is the Company’s practice to settle these amounts no later than 90 days after the due date.

The Company has an agreement with PL&A to lend up to $100 million at a variable interest rate. There were no borrowings outstanding as of December 31, 2021.

In September 2021, the Company entered into a one year agreement with Pacific Life Re International Limited (RIBM) to lend up to $100 million at a fixed rate of 0.7%. The amount loaned was $70 million as of December 31, 2021.

E. The Company provides investment and administrative services for certain subsidiaries and affiliates under administrative services agreements.

F. Guarantees: The Company entered into agreements with PLRL, Pacific Life Re (Australia) Pty Limited (PLRA), RIBM and RGBM, all such entities being wholly-owned indirect subsidiaries of Pacific LifeCorp, to guarantee the performance of reinsurance obligations of PLRL, PLRA, RIBM and RGBM, respectively. The guarantees for PLRL, PLRA and RIBM are secondary to the guarantees provided by Pacific LifeCorp and would only be triggered in the event of nonperformance by PLRL, PLRA or RIBM and Pacific LifeCorp. PLRL, PLRA, RIBM and RGBM each pay the Company a fee for their respective guarantees. See Note 14.A.2.

The Company has a guarantee to provide funds, on Pacific LifeCorp's behalf, of up to 165 million pounds sterling to PLRL. This guarantee is contingent on the nonperformance of a contingent capital commitment between Pacific LifeCorp and PLRL. Management believes that additional obligations, if any, related to the guarantee agreements are not likely to have a material adverse impact on the Company's financial statements.

G. On September 1, 1997, Pacific Mutual Life Insurance Company (Pacific Mutual) implemented a plan of conversion to form a mutual holding company structure (the Conversion). The Conversion created Pacific LifeCorp, an intermediate stock holding company and the Company’s immediate parent, and PMHC, a Nebraska mutual holding company. Pacific Mutual was converted to a stock life insurance company and renamed Pacific Life. Under their respective charters, PMHC must always own at least 51% of the outstanding voting stock of Pacific LifeCorp, and Pacific LifeCorp must always own 100% of the voting stock of Pacific Life.

H. The Company does not own shares of any upstream intermediate or ultimate parent, either directly or indirectly via a downstream subsidiary SCA.

I. The Company holds no investments in SCA entities that exceed 10% of admitted assets of the Company.

J. The Company did not recognize any impairment write-downs for its investments in SCA entities during 2021.

K. The Company does not have investments in foreign insurance subsidiaries with adjusted U.S. GAAP reserves.

NOTES TO FINANCIAL STATEMENTS

L. In accordance with SSAP No. 97, *Investments in Subsidiary, Controlled, and Affiliated Entities* and SSAP No. 48, *Joint Ventures, Partnerships and Limited Liability Companies*, the Company utilizes a look-through approach in valuing its investment in Pacific Private Equity Fund Incentive Allocation LLC (PPEIA), a downstream, non-insurance holding company that does not produce audited financial statements. The Company's valuation of PPEIA was $6 million as of December 31, 2021.

NOTES TO FINANCIAL STATEMENTS

11. DEBT

A. The Company maintains a $700 million commercial paper program. There was no commercial paper debt outstanding as of December 31, 2021. In addition, the Company had a bank revolving credit facility of $400 million maturing in June 2023 that served as a back-up line of credit to the commercial paper program. In June 2021, this facility and a $600 million revolving credit facility at Pacific LifeCorp were unified and extended into a new $1.0 billion senior revolving credit facility available to both borrowers up to the full commitment amount (the Company and Pacific LifeCorp) with a maturity date of June 2026. The new facility serves as a back-up line of credit to the commercial paper program. Interest is at variable rates. This facility had no debt outstanding as of December 31, 2021. The revolving credit facility has certain debt covenants and the Company was in compliance with those debt covenants as of December 31, 2021. The Company maintains a reverse repurchase line of credit with various financial institutions. There was no debt outstanding in connection with these lines of credit as of December 31, 2021.

B. FHLB (Federal Home Loan Bank) Agreements

1. The Company is a member of the FHLB. The Company is eligible to receive advances from the FHLB based on a percentage of the Company's statutory general account assets provided it has sufficient available eligible collateral and is in compliance with the FHLB requirements, debt covenant restrictions and insurance laws and regulations. The Company's estimated maximum borrowing capacity (after taking into account required collateralization levels) was $1.5 billion and $1.7 billion as of December 31, 2021 and 2020, respectively. However, asset eligibility determination is subject to the FHLB's discretion and to the availability of qualifying assets at the Company. Interest is at variable or fixed rates.

   Through its membership, the Company has issued funding agreements to the FHLB in exchange for cash advances. The Company uses these funds in an investment spread strategy, consistent with its other investment spread business. As such, the Company applies SSAP No. 52, *Deposit-Type Contracts*, accounting treatment to these funds, consistent with its other deposit-type contracts. It is not part of the Company's general strategy to utilize funds for operations, and any funds obtained from the FHLB for use in general operations would be accounted for consistent with SSAP No. 15, *Debt and Holding Company Obligations*, as borrowed money. There was no debt outstanding with the FHLB as of December 31, 2021 and 2020.

B-D. The Company's defined benefit plan is unfunded without plan assets.

NOTES TO FINANCIAL STATEMENTS

E. Defined Contribution Plans:

The Company provides a Retirement Incentive Savings Plan (RISP) covering all eligible employees. The Company's RISP matches 75% of each employee's contribution, up to a maximum of 6% of eligible employee compensation. The Company's match plus other contributions made by the Company to the RISP amounted to $41 million and $44 million for the years ended December 31, 2021 and 2020, respectively.

The Company has deferred compensation plans that permit eligible employees to defer portions of their compensation and earn interest on the deferred amounts. The interest rate is determined quarterly. The compensation that has been deferred has been accrued and the primary expense related to this plan, other than compensation, is interest on the deferred amounts. As of December 31, 2021 and 2020, the deferred amounts were $137 million and $138 million, respectively. The Company credited to the plan $6 million and $7 million for the years ended December 31, 2021 and 2020, respectively.

F. The Company does not participate in a qualified, non contributory defined benefit pension plan.

G. The Company does not participate in a qualified, non contributory defined benefit pension plan sponsored by an affiliated consolidated/holding company.

H. The Company has no obligation for postemployment benefits or compensated absences that have not been accrued for in accordance with SSAP No. 11, *Postemployment Benefits and Compensated Absences.*

I. There was no impact of the Medicare Modernization Act on postretirement benefits.

13. CAPITAL AND SURPLUS, DIVIDEND RESTRICTIONS AND QUASI-REORGANIZATIONS

A. The Company has 600,000 shares of common stock authorized, issued and outstanding with a par value of $50.00 per share. There is only one class of shares.

B. The Company has no preferred stock authorized or outstanding.

C. The payment of dividends by the Company to Pacific LifeCorp is subject to restrictions set forth in the State of Nebraska insurance laws. These laws require (i) notification to the NE DOI for the declaration and payment of any dividend and (ii) approval by the NE DOI for accumulated dividends within the preceding twelve months that exceed the greater of 10% of statutory policyholder surplus as of the preceding December 31 or statutory net gain from operations for the preceding twelve months ended December 31. Based on this limitation and 2021 statutory results, the Company could pay up to $769 million in dividends during the year ending December 31, 2022 to Pacific LifeCorp, without prior approval by the NE DOI, subject to the notification requirement.

D. The Company paid a $450 million ordinary dividend in the form of cash and bonds to Pacific LifeCorp on December 23, 2021. The Company did not pay any dividends during 2020.

E. Within the limitations of item C. above, there are no restrictions placed on the portion of Company profits that may be paid as ordinary dividends to stockholders.

On December 30, 1993, the Company issued Contribution Certificates, also referred to as surplus notes (1993 Surplus Notes) in the principal amount of $150 million for net cash proceeds of approximately $147.4 million at an interest rate of 7.90% maturing on December 30, 2023. Interest is payable semiannually on June 30 and December 30. The Company had entered into interest rate swaps converting these surplus notes to variable rate notes based upon the London Interbank Offered Rate (LIBOR). During the year ended December 31, 2011, the interest rate swaps were terminated. Deferred gains related to the termination of the interest rate swaps were recorded directly to surplus in “aggregate write-ins for other than special surplus funds” and are amortized as a reduction of interest expense over the life of the surplus notes using the effective interest method. As of December 31, 2021, total unamortized gains were $10 million. Amortization totaled $5 million for the years ended December 31, 2021 and 2020.

The 1993 Surplus Notes were issued pursuant to Rule 144A under the Securities Act of 1933, underwritten by Merrill Lynch & Co., Goldman Sachs & Co., and J.P. Morgan Securities, Inc., and are administered by JPMorgan Chase Bank. The 1993 Surplus Notes may not be redeemed at the option of the Company or any holder of the 1993 Surplus Notes. The 1993 Surplus Notes are unsecured and subordinated to all present and future senior indebtedness and policy claims of the Company. Each payment of interest on and the repayment of principal of the 1993 Surplus Notes may be made only out of the Company’s surplus and with the prior approval of the Director of the NE DOI. The 1993 Surplus Notes are held by bank custodians for unaffiliated investors and may hold 10% or more of the outstanding notes at any time.

On October 24, 2017, with the approval of the Director of the NE DOI, the Company pursuant to a tender offer repurchased and retired $16 million of the 1993 Surplus Notes. A tender offer premium payment of $4 million was recorded in interest expense and reported through net investment income. Partially offsetting the interest expense was $3 million from the amortization from surplus of deferred derivative gains which were recorded following the 2011 termination of interest rate swaps, and was also recorded through net investment income.

NOTES TO FINANCIAL STATEMENTS

On June 15, 2009, the Company issued $1 billion of surplus notes at a fixed interest rate of 9.25%, maturing on June 15, 2039 (2009 Surplus Notes). Interest is payable semiannually on June 15 and December 15. The Company may redeem all or a portion of the 2009 Surplus Notes at its option, subject to the prior approval of the Director of the NE DOI for such optional redemption. The 2009 Surplus Notes are unsecured and subordinated to all present and future senior indebtedness and policy claims of the Company. Each payment of interest on and the repayment of principal of the 2009 Surplus Notes may be made only out of the Company's surplus and with the prior approval of the Director of the NE DOI. The Company had entered into interest rate swaps converting these surplus notes to variable rate notes based upon the LIBOR. During the year ended December 31, 2011, the interest rate swaps were terminated. Deferred gains related to the termination of the interest rate swaps were recorded directly to surplus in "aggregate write-ins for other than special surplus funds" and are amortized as a reduction of interest expense over the life of the surplus notes using the effective interest method. As of December 31, 2021, total unamortized gains were $113 million. Amortization totaled $3 million for the years ended December 31, 2021 and 2020.

The 2009 Surplus Notes were issued pursuant to Rule 144A under the Securities Act of 1933, underwritten by Goldman Sachs & Co., UBS Investment Bank and Wachovia Securities. U.S. Bank has been appointed as fiscal agent to act as registrar, principal paying agent and transfer agent with respect to the 2009 Surplus Notes. The 2009 Surplus Notes are held by bank custodians for unaffiliated investors and may hold 10% or more of the outstanding notes at any time.

On January 22, 2013, with the approval of the Director of the NE DOI, the Company pursuant to a tender offer repurchased and retired $323 million of the 2009 Surplus Notes. A tender offer premium payment of $155 million was recorded in interest expense and reported through net investment income. Partially offsetting the interest expense was $112 million from the amortization from surplus of deferred derivative gains which were recorded following the 2011 termination of interest rate swaps, and was also recorded through net investment income.

On February 11, 2016, with the approval of the Director of the NE DOI, the Company repurchased and retired an additional $56 million of principal of its 2009 Surplus Notes. A premium payment of $24 million was recorded in interest expense and reported through net investment income. Partially offsetting the interest expense was $18 million from the amortization from surplus of deferred derivative gains which were recorded following the 2011 termination of interest rate swaps, and was also recorded through net investment income.

On October 24, 2017, with the approval of the Director of the NE DOI, the Company pursuant to a tender offer repurchased and retired $236 million of the 2009 Surplus Notes. A tender offer premium payment of $166 million was recorded in interest expense and reported through net investment income. Partially offsetting the interest expense was $74 million from the amortization from surplus of deferred derivative gains which were recorded following the 2011 termination of interest rate swaps, and was also recorded through net investment income.

Concurrent with the repurchase of 2009 Surplus Notes on January 22, 2013 discussed above and, with the approval of the Director of the NE DOI, the Company issued a $500 million, 30-year surplus note to its parent, Pacific LifeCorp, at a fixed interest rate of 5.125%, with semi-annual interest payments due January 25 and July 25, maturing on January 25, 2043 (2013 Surplus Note). Each payment of interest on and the repayment of principal of the 2013 Surplus Notes may be made only out of the Company's surplus and with the prior approval of the Director of the NE DOI. The 2013 Surplus Note is unsecured and subordinated to all present and future senior indebtedness and policy claims of the Company.

On October 24, 2017, with the approval of the Director of the NE DOI, the Company repurchased and retired $90 million of the 2013 Surplus Note.

On October 24, 2017, with the approval of the Director of the NE DOI, the Company issued $750 million of 4.3% surplus notes maturing on October 24, 2067 (2017 Surplus Notes). The 2017 Surplus Notes accrue interest at a fixed rate of 4.3% through October 23, 2047, and thereafter until maturity at a floating rate equal to the three-month LIBOR for deposits in U.S. dollars plus 2.796%. Interest is payable semiannually on April 24 and October 24 until and including October 24, 2047, and thereafter quarterly on January 24, April 24, July 24 and October 24 of each year, commencing on January 24, 2048. The Company may redeem all or a portion of the 2017 Surplus Notes at its option any time on or after October 24, 2047 at the redemption price described under the terms of the 2017 Surplus Notes subject to the prior approval of the Director of the NE DOI for such optional redemption. Each payment of interest on and the repayment of principal of the 2017 Surplus Notes may be made only out of the Company's surplus and with the prior approval of the Director of the NE DOI. The 2017 Surplus Notes are held by bank custodians for unaffiliated investors and may hold 10% or more of the outstanding notes at any time. The 2017 Surplus Notes are unsecured and subordinated to all present and future senior indebtedness and policy claims of the Company.

L-M. The Company has not had any quasi-reorganizations.

NOTES TO FINANCIAL STATEMENTS

14. LIABILITIES, CONTINGENCIES AND ASSESSMENTS

A. Contingent Commitments

1. The Company has an agreement with PL&A to lend up to $100 million at a variable interest rate. There were no borrowings outstanding as of December 31, 2021. In connection with the operations of certain subsidiaries, the Company has made commitments to provide for additional capital funding as may be required. Refer to Schedule Y - Part 2 for additional details.

   The Company had $4,483 million of commitments to fund investments in SCA entities, joint ventures, partnerships and limited liability companies listed on Schedule BA.

   The Company has no commitments or contingent commitments related to LIHTC investments.

2. Nature and Circumstances of Guarantees:

Nature and Circumstances of Guarantee and Key Attributes, Including Date and Duration of Agreement.	Liability Recognition of Guarantee. (Include Amount Recognized at Inception. If No Initial Recognition, Document Exception Allowed Under SSAP No. 5R.)	Ultimate Financial Statement Impact If Action Under the Guarantee Is Required.	Maximum Potential Amount of Future Payments (Undiscounted) the Guarantor Could Be Required to Make Under the Guarantee. If Unable to Develop an Estimate, This Should Be Specifically Noted.	Current Status of Payment or Performance Risk of Guarantee. Also Provide Additional Discussion as Warranted.
In connection with the operations of certain subsidiaries, Pacific Life has made commitments to provide for additional capital funding as may be required.	Recognition is exempted under SSAP No. 5R. paragraph 18.d.	Unlimited	Unlimited	None pending at 12/31/2021

Initial liability was immaterial.	165 million pounds sterling (a)	165 million pounds sterling (a)	None pending at 12/31/2021
Total				XXX

(a) The USD equivalent as of 12/31/2021 was approximately $223 million

3. The Company does not have potential future payments required to be made under guarantee obligations.

B. Assessments

1. The Company is required by law to participate in the guaranty associations of the various states in which it is licensed to do business. The state guaranty associations ensure payments of guaranteed benefits, with certain restrictions, to policyholders of impaired or insolvent insurance companies by assessing all other companies operating in similar lines of business. The Company has not received notification of any insolvency that is expected to result in a material guaranty fund assessment.

   The Company has a liability for estimated guaranty fund assessments and a related premium tax asset. As of December 31, 2021 and 2020, the estimated liability was $1.5 million and $1.6 million, respectively. As of December 31, 2021 and 2020, the related premium tax asset as $1.3 million and $1.5 million, respectively. These amounts represent management’s best estimate based on information received from the state in which the Company writes business and may change due to many factors including the Company’s share of the ultimate cost of current insolvencies. Future guaranty fund assessments are expected to be paid based on anticipated funding periods for each guaranty association obligation. Premium tax offsets are expected to be realized based on regulations set forth by various state taxing authorities.

NOTES TO FINANCIAL STATEMENTS

2. Assets from Paid and Accrued Premium Tax Offset Rollforward

	December 31, 2021
a. Assets Recognized from Paid and Accrued Premium Tax Offsets and Policy Surcharges Prior Year-end	$1,541,011
b. Decreases Current Year:	
Premium Tax Offsets Applied	(290,210)
c. Increases Current Year:	
Guaranty Fund Assessments Paid	50,237
d. Assets Recognized from Paid and Accrued Premium Tax Offsets and Policy Surcharges Current Year-end	$1,301,038

3. The Company does not have guaranty fund liabilities and assets related to assessments from insolvencies of entities that wrote long-term care contracts.

C. The Company did not recognize any gain contingencies.

D. The Company did not have claims related extra contractual obligations or bad faith losses stemming from lawsuits.

E The Company did not have joint and several liability arrangements accounted for under SSAP No. 5R, *Liabilities, Contingencies and Impairments of Assets.*

F. All Other Contingencies

The Company is a respondent in a number of legal proceedings, some of which involve allegations for extra-contractual damages. Although the Company is confident of its position in these matters, success is not a certainty and a judge or jury could rule against the Company. In the opinion of management, the outcome of such proceedings is not likely to have a material adverse effect on the Company's financial statements. The Company believes adequate provision has been made in its financial statements for all probable and reasonably estimable losses for litigation claims against the Company.

In 2007, the Internal Revenue Service (IRS) issued Rev. Rul. 2007-54, interpreting then-current tax law regarding the computation of the DRD. Later in 2007, the IRS issued Revenue Ruling 2007-61, suspending Rev. Rul. 2007-54 and indicating that the IRS would re-address this issue in a future regulation project. In 2014, the IRS issued Rev. Rul. 2014-7, stating that it would not address this issue through regulation, but instead would defer to legislative action. Rev. Rul. 2014-7 also expressly superseded Rev. Rul. 2007-54, and declared Rev. Rul. 2007-61 obsolete. With the enactment the Act on December 22, 2017, DRD computations have been modified effective January 1, 2018. Therefore, the Company does not expect that any of the rulings described above will affect DRD computations in the future. However, in open tax years before 2018, the Company could still lose a substantial portion of its DRD claims, which could in turn have a material adverse effect on the Company's financial statements.

In the course of its business, the Company provides certain indemnifications related to dispositions, acquisitions, investments, lease agreements or other transactions that are triggered by, among other things, breaches of representations, warranties or covenants provided by the Company. These obligations are typically subject to time limitations that vary in duration, including contractual limitations and those that arise by operation of law, such as applicable statutes of limitation. Because the amounts of these types of indemnifications often are not explicitly stated, the overall maximum amount of the obligation under such indemnifications cannot be reasonably estimated. The Company has not historically made material payments for these types of indemnifications. The estimated maximum potential amount of future payments under these obligations is not determinable due to the lack of a stated maximum liability for certain matters, and therefore, the Company may record a contingent reserve for such matters. Management believes that judgments, if any, against the Company related to such matters are not likely to have a material adverse effect on the Company's financial statements.

The Company issues synthetic guaranteed interest contracts to Employee Retirement Income Security Act of 1974 (ERISA) qualified defined contribution employee benefit plans and 529 plans. The plan uses the contract in its stable value fixed income option. The Company receives a fee for providing book value accounting for the plan’s stable value fixed income option. In the event that plan participant elections exceed the fair value of the assets or if the contract is terminated and at the end of the termination period the book value under the contract exceeds the fair value of the assets, then the Company is required to pay the plan the difference between book value and fair value. The Company mitigates the investment risk through pre-approval and compliance monitoring of the investment guidelines, and contractual provisions including the credited rate reset formula that reflects the actual investment and cash flow experience of the underlying plan.

15. LEASES

A. Lessee Leasing Arrangements:

1. General Description

   a. The Company has operating leases for office space and equipment of its primary operating centers in Newport Beach, California, Omaha, Nebraska and for its various field offices. Rental expense for the years ended December 31, 2021 and 2020 was $12 million and $10 million, respectively.

   b. There are no contingent rental payments.

   c. Certain rental commitments have renewal options extending through the year 2028. Some of these renewals are subject to adjustments in future periods.

   d. There are no significant restrictions imposed by these lease agreements.

   e. There were no lease agreements terminated early with liability recognized.

2. Remaining Non-cancelable Lease Terms

   a. At December 31, 2021, the minimum aggregate rental commitments are as follows:

	Year Ending December 31,	Operating Leases
1.	2022	$10,567,751
2.	2023	10,138,085
3.	2024	9,998,166
4.	2025	9,202,968
5.	2026 and thereafter	15,081,794
6.	Total	$54,988,764

   b. There were no non-cancelable subleases.

3. The Company was not involved in any material sale-leaseback transactions.

B. Leasing is not a significant business activity of the Company.

16. INFORMATION ABOUT FINANCIAL INSTRUMENTS WITH OFF-BALANCE-SHEET RISK AND FINANCIAL INSTRUMENTS WITH CONCENTRATIONS OF CREDIT RISK

1. The table below summarizes the face (notional) amount of the Company's financial instruments with off-balance-sheet risk.

	Assets		Liabilities	
	December 31, 2021	December 31, 2020	December 31, 2021	December 31, 2020
a. Swaps	$10,735,576,491	$4,586,748,788	$0	$0
b. Futures	2,730,632,717	2,736,378,891	0	0
c. Options	23,087,423,542	17,221,627,027	0	0
d. Total	$36,553,632,750	$24,544,754,706	$0	$0

   See Schedule DB for additional detail.

2. The notional amount of a derivative does not represent an amount that must be paid or received in the future, except in the case of currency swaps. However, such amounts do provide an indication of their potential sensitivity to interest rates, equity indices or currencies, as applicable. The market sensitivity of a derivative would approach that of a cash instrument having a face amount equal to the derivative's notional amount. Included in the table above is the notional for all derivative positions whether designated as a hedge or not. See Notes 1.C. and 8. for the accounting policies for derivative transactions and discussion of credit and market risk.

3. The Company is exposed to credit-related losses in the event of nonperformance by derivative counterparties to OTC derivatives. The Company manages its credit risk by dealing with creditworthy counterparties, establishing risk-control limits, executing legally enforceable master netting agreements, and obtaining collateral where appropriate. In addition, the Company evaluates the financial stability of each counterparty before entering into each agreement and throughout the period that the financial instrument is owned.

   The Company's credit exposure is measured on a counterparty basis as the net positive fair value of all derivative positions with the counterparty, net of income or expense accruals and collateral received. All of the net credit exposure for the Company from derivative contracts is with investment-grade counterparties. The Company has not incurred any losses on derivative financial instruments due to counterparty nonperformance for the years ended December 31, 2021 and 2020. The Company does not expect any counterparties to fail to meet their obligations given their investment-grade ratings.

   The Company's OTC-cleared derivatives are effected through central clearing counterparties and its exchange-traded derivatives are effected through regulated exchanges. Such positions are marked to market and margined on a daily basis (both initial margin and variation margin), and the Company has minimal exposure to credit-related losses in the event of nonperformance by counterparties to such derivatives.

NOTES TO FINANCIAL STATEMENTS

4. For OTC derivative transactions, the Company enters into legally enforceable master netting agreements which provide for the netting of payments and receipts with a single counterparty. The net position with each counterparty is calculated as the aggregate fair value of all derivative instruments with each counterparty, net of income or expense accruals and collateral paid or received. These master netting agreements include collateral arrangements with derivative counterparties, which requires positions be marked to market and margined on a daily basis by the daily settlement of variation margin. The Company has minimal counterparty exposure to credit-related losses in the event of non performance by these counterparties.

   The OTC agreements may include a termination event clause associated with financial strength ratings assigned by certain independent rating agencies. If these financial strength ratings were to fall below a specified level, as defined within each counterparty master agreement, or if one of the rating agencies were to cease to provide a financial strength rating, the counterparty could terminate the master agreement with payment due based on the net fair value of the underlying derivatives. As of December 31, 2021 and 2020, the Company's financial strength ratings were above the specified level.

17. SALE, TRANSFER AND SERVICING OF FINANCIAL ASSETS AND EXTINGUISHMENTS OF LIABILITIES

A. The Company did not have any transfers of receivables reported as sales.

B. Transfer and Servicing of Financial Assets

1. Loaned Securities:

   The Company participates in a securities lending program whereby securities are loaned to third parties for the purpose of enhancing income on securities held through reinvestment of cash collateral received upon lending. For securities lending transactions, the Company requires a minimum initial collateral, usually in the form of cash, equal to 102% of the fair value of the securities loaned. The borrower of the loaned securities is permitted to sell or repledge those securities. For securities lending transactions, the carrying value of securities classified as bonds and on loan at December 31, 2021 was $3.0 billion, with fair value of $3.2 billion. Under these agreements, the Company recorded cash collateral received of $3.3 billion and established a corresponding liability for the same amount, which is included in payable for securities lending on Page 3 – Liabilities, Surplus and Other Funds. This collateral is not restricted, and there is no collateral that extends beyond one year from December 31, 2021. See Note 5.E. At December 31, 2021, there were no separate accounts securities lending arrangements.

2-3. The Company did not enter into agreements to service assets or liabilities.

4. The Company did not have securitizations, asset-backed financing arrangements or similar transfers accounted for as sales.

5. Transfers of Financial Assets Accounted for as Secured Borrowings:

   In 2015, the Company entered into a participation agreement with an unrelated third party (Transferee) that qualified as a secured borrowing transaction. The Company transferred an approximate 10% interest in two commercial mortgage loan receivables (the Loans) to the Transferee and maintained an ownership interest in the Loans. In 2021, the participation agreement was terminated.

6. The Company did not have any transfers of receivables with recourse.

7. The Company did not have dollar repurchase or dollar reverse repurchase agreements.

C. Wash Sales:

1. In the course of the Company's asset management activities, securities are sold and reacquired within thirty days of the sale date to enhance the Company's yield on its investment portfolio.

2. There were no securities with NAIC designation of 3 or below or unrated sold and reacquired within 30 days of the sale date.

18. GAIN OR LOSS TO THE REPORTING ENTITY FROM UNINSURED PLANS AND THE UNINSURED PORTION OF PARTIALLY INSURED PLANS

A. The Company is not an administrator for any ASO Plans.

B. The Company is not an administrator for any ASC Plans.

C. The Company is not an administrator for any medicare or other similarly structured cost-based reimbursement contract.

20. FAIR VALUE MEASUREMENTS

A. The Company's financial assets and liabilities that are carried at fair value have been classified, for disclosure purposes, based on a hierarchy defined by SSAP No. 100R, *Fair Value*. The determination of fair value requires the use of observable market data when available. The hierarchy consists of the following three levels that are prioritized based on observable and unobservable inputs.

Level 1: Unadjusted quoted prices for identical instruments in active markets. Level 1 financial instruments include securities that are traded in an active exchange market.

Level 2: Observable inputs other than Level 1 prices, such as quoted prices for similar instruments in active markets, quoted prices for identical or similar instruments in inactive markets, and model-derived valuations for which all significant inputs are observable market data.

Level 3: Valuations derived from valuation techniques in which one or more significant inputs are not market observable.

Investments reported at Net Asset Value (NAV) are not captured within the fair value hierarchy, but are separately identified in the table below.

1. Fair Value Measurements of Financial Assets and Liabilities Carried at Fair Value or NAV as of December 31, 2021:

NOTES TO FINANCIAL STATEMENTS

4. The fair values of bonds, preferred stocks and common stocks are determined by management after considering external pricing sources and internal valuation techniques. For securities with sufficient trading volume, prices are obtained from third-party pricing services. For securities that are traded infrequently, fair values are determined after evaluating prices obtained from third-party pricing services and independent brokers or are valued internally using various valuation techniques.

   The Company's management analyzes and evaluates prices received from independent third parties and determines whether they are reasonable estimates of fair value. Management's analysis may include, but is not limited to, review of third-party pricing methodologies and inputs, analysis of recent trades, comparison to prices received from other third parties and development of internal models utilizing observable market data of comparable securities. The Company assesses the reasonableness of valuations received from independent brokers by considering current market dynamics and current pricing for similar securities.

   For prices received from independent pricing services, the Company applies a formal process to challenge any prices received that are not considered representative of fair value. If prices received from independent pricing services are not considered reflective of market activity or representative of fair value, independent non-binding broker quotations are obtained or an internally developed valuation is prepared. Upon evaluation, the Company determines which source represents the best estimate of fair value. Overrides of third-party prices to internally developed valuations of fair value did not produce material differences in the fair values for the majority of the portfolio; accordingly, overrides were not material. In the absence of such market observable activity, management’s best estimate is used.

   Fair values determined by internally derived valuation tools use market-observable data if available. Generally, this includes using an actively traded comparable security as a benchmark for pricing. These internal valuation methods primarily represent discounted cash flow models that incorporate significant assumptive inputs such as spreads, discount rates, default rates, severity and prepayment speeds. These inputs are analyzed by the Company’s portfolio managers and analysts, investment accountants and risk managers. Internally developed estimates may also use unobservable data, which reflect the Company’s own assumptions about the inputs market participants would use.

   Most securities priced by a major independent third-party service have been classified as Level 2, as management has verified that the significant inputs used in determining their fair values are market observable and appropriate. Externally priced securities for which fair value measurement inputs are not sufficiently transparent, such as securities valued based on broker quotations, have been classified as Level 3. Internally valued securities, including adjusted prices received from independent third parties, where significant management assumptions have been utilized in determining fair value, have been classified as Level 3. Securities categorized as Level 1 consist primarily of investments in mutual funds.

   The Company applies controls over the valuation process. Prices are reviewed and approved by the Company’s professional credit analysts that have industry expertise and considerable knowledge of the issuers. Management performs validation checks to determine the completeness and reasonableness of the pricing information, which include, but are not limited to, changes from identified pricing sources, significant or unusual price fluctuations above predetermined tolerance levels from the prior period, and back-testing of fair values against prices of actual trades. A group comprised of the Company’s investment accountants, portfolio managers and analysts and risk managers meet to discuss any unusual items above the tolerance levels that may have been identified in the pricing review process. These items are investigated, further analysis is performed and resolutions are appropriately documented.

   Derivative instruments are reported at fair value using pricing valuation models which utilize market data inputs or independent broker quotations or exchange prices for exchange-traded futures. The Company calculates the fair value of derivatives using market standard valuation methodologies for foreign currency and interest rate swaps and equity options. Internal models are used to value equity total return swaps. The derivatives are valued using mid-market inputs that are predominantly observable in the market. Inputs include, but are not limited to, interest swap rates, foreign currency forward and spot rates, credit spreads and correlations, interest volatility, equity volatility and equity index levels. On a monthly basis, the Company performs an analysis of derivative valuations, which includes both quantitative and qualitative analyses. Examples of procedures performed include, but are not limited to, review of pricing statistics and trends, analysis of the impacts of changes in the market environment and review of changes in the market value for each derivative by both risk managers and investment accountants. Internally calculated fair values are reviewed and compared to external broker fair values for reasonableness.

   Derivative instruments classified as Level 1 are exchange-traded. Derivative instruments classified as Level 2 primarily include foreign currency and interest rate swaps. The derivative valuations are determined using pricing models with inputs that are observable in the market or can be derived principally from or corroborated by observable market data, primarily interest swap rates, interest rate volatility and foreign currency forward and spot rates.

   Derivative instruments classified as Level 3 include complex derivatives, such as equity options and total return swaps. These derivatives are valued using pricing models which utilize both observable and unobservable inputs, primarily interest rate volatility, equity volatility, equity index levels and, to a lesser extent, broker quotations. A derivative instrument containing Level 2 inputs would be classified as a Level 3 financial instrument in its entirety if it has at least one significant Level 3 input.

   The fair value of separate account assets is based on the fair value or NAV of the underlying assets. Separate account assets held at fair value primarily consist of investments in mutual funds and hedge funds.

   Level 1 separate account assets include mutual funds that are valued based on reported net asset values provided by fund managers daily and can be redeemed without restriction. Management performs validation checks to determine the reasonableness of the pricing information, which include, but are not limited to, price fluctuations above predetermined thresholds from the prior day and validation against similar funds or indices. Variances are investigated, further analysis is performed and resolutions are appropriately documented.

NOTES TO FINANCIAL STATEMENTS

B. Disclosure of Fair Value of Financial Instruments:

The following methods and assumptions were used to estimate the fair value of these financial instruments as of December 31, 2021:

Mortgage Loans: The fair value of the mortgage loan portfolio is determined by discounting the estimated future cash flows, using current rates that are applicable to similar credit quality, property type and average maturity of the composite portfolio.

Cash, Cash Equivalents and Short-Term Investments (including Securities Lending Reinvested Collateral Assets): For cash and cash equivalents with maturities of three months or less from date of purchase, their fair values approximate their book/adjusted carrying values due to their short maturities. For short-term investments with maturities of one year or less from date of purchase, excluding cash equivalents and money market mutual funds, their fair values are determined using similar valuation techniques as described above for bonds. Cash equivalents that are money market mutual funds have fair values that approximate their book/adjusted carrying values due to the short maturities of the underlying investments of the funds. Securities lending reinvested collateral assets that are primarily reverse purchase agreements have fair values that approximate their book/adjusted carrying values due to their short maturities.

Contract Loans: Contract loans are not separable from their associated insurance contract and bear no credit risk since they do not exceed the contract's cash surrender value, making these assets fully secured by the cash surrender value of the contracts. Therefore, the carrying amount of the contract loans is a reasonable approximation of fair value.

Other Invested Assets: Other invested assets consist of surplus note investments held from other insurance providers, WCFIs that are NAIC rated 1 or 2 and tax credit investments. The fair values of the surplus note investments are priced by an independent pricing service as described for bonds above. The WCFIs are held at accreted book value which approximates fair value due to the short-term nature of the investment.

Separate Account Assets: The fair value of assets in the Separate Accounts in Level 2 consist of bonds based on the valuation methods described in Note 20 A.4. above. The fair value of assets in the Separate Accounts in Level 3 consist of bonds based on valuation methods described in Note 20 A.4. above and mortgage loans based on the valuation method described above.

Liability for Deposit-Type Contracts: The primary methods used to determine the estimated fair value of liability for deposit-type contracts are: discounted cash flow methodologies using significant unobservable inputs, discounted cash flow methodologies using current market risk-free interest rates and adding a spread to reflect nonperformance risk and use of carrying values to approximate fair value due to the short-term nature of certain deposit-type contracts.

Borrowings: The secured borrowing fair value is determined by discounting estimated future cash flows, using current rates that are applicable to similar quality, collateral type and maturity.

Separate Account Liability for Deposit-Type Contracts: The statement value of separate account liability for deposit-type contracts is reported under separate account liabilities and is a reasonable estimate of their fair value because the contractual interest rates are variable and based on current market rates.

(1) The tables above exclude the following financial instruments: investment income due and accrued and derivatives collateral receivable and payable. The fair value of these financial instruments, which are primarily classified as Level 2, approximates carrying value as they are short–term in nature such that there is minimal risk of material changes in fair value due to changes in interest rates or counterparty credit

(2) Excludes investments accounted for under the equity method

(3) Excludes payable for securities lending as it equals the securities lending reinvested collateral

(4) Excludes deposit liabilities with no defined or contractual maturities

D. The Company had no investments where it was not practicable to estimate fair value.

E. Investments Measured Using the NAV Practical Expedient:

Separate account assets include hedge funds where the fair value is based on the net asset value obtained from the fund managers. Investment strategies related to separate account hedge funds include multi-strategy primarily invested in U.S. and international equity, fixed income, long/short equity, loans, precious metals, real estate, derivatives, privately held companies and private partnerships. The redemption frequency can be daily, monthly, quarterly, semi-annually and annually. The remaining lockup period ranges from zero to 32 months as of December 31, 2021. There are no unfunded commitments of investments measured using the NAV practical expedient as of December 31, 2021.

NOTES TO FINANCIAL STATEMENTS

21. OTHER ITEMS

A. The Company did not have any unusual or infrequent items.

B. The Company did not have troubled debt restructuring during 2021.

C. Other Disclosures

1. Ceded Affiliated Reinsurance

The Company cedes certain statutory reserves to affiliated special purpose financial insurance companies and affiliated captive reinsurance companies that are supported by a combination of cash, invested and other assets and third-party excess of loss reinsurance agreement or note facilities. As of December 31, 2021, the Company's total statutory reserve credit was $3,131 million, of which $1,737 million was supported by third-party excess of loss reinsurance agreement and note facilities, as described below.

The Company utilizes affiliated reinsurers to mitigate the statutory capital impact of NAIC Model Regulation "Valuation of Life Insurance Polices" (Regulation XXX) and NAIC Actuarial Guideline 38 on the Company's universal life products with flexible duration no lapse guarantee rider (FDNLGR) benefits. PAR Vermont and PBRC are Vermont based special purpose financial insurance companies subject to regulatory supervision by the Vermont Department of Financial Regulation (Vermont Department). PAR Vermont and PBRC are wholly-owned subsidiaries of the Company and accredited authorized reinsurers in Nebraska. The Company cedes certain level term life insurance to PBRC and FDNLGR benefits to PAR Vermont and PBRC. Economic reserves, as defined in the PAR Vermont and PBRC reinsurance agreements, are supported by cash and invested and other assets, including funds withheld at the Company.

Effective December 1, 2019, PAR Vermont entered into a 25-year excess of loss reinsurance agreement (XOL Agreement) with an unrelated third party for a maximum commitment amount of $1.5 billion with an expiration date of December 1, 2044 which replaced the previously held LOC Facility. The XOL Agreement is non-recourse to Pacific LifeCorp or any of its affiliates, other than PAR Vermont. The XOL Asset Value calculated in accordance with the XOL Agreement was approved as, and was included as, an admitted asset by the Vermont Department as of December 31, 2021. The XOL Asset Value in the amount of $719 million ($719 million admitted) was recorded by PAR Vermont as of December 31, 2021.

Reserves in excess of the economic reserves are supported at PBRC by a note facility with a maximum commitment amount of $1.6 billion. This facility is non-recourse to the Pacific LifeCorp or any of its affiliates, other than PBRC. Through this facility, PBRC issued a surplus note with a maturity date of December 2046 and received a promissory note in return with a maturity date of December 2041. The promissory note is credit enhanced by a highly rated third-party reinsurer for 22 years with a three year extension. The promissory note has been approved as an admissible asset by the Vermont Department for PBRC statutory accounting. As of December 31, 2021 and 2020, the promissory note amounted to $647 million and $525 million, respectively, and was held in a trust with the Company as beneficiary. PBRC admitted $647 million as an asset in its statutory financial statements as of December 31, 2021.

RGBM assumes certain U.S. life retrocession business from the Company, as well as other non-U.S. life retrocession business. The Company has reinsurance agreements with RGBM, through which the Company retrocedes underlying YRT U.S. treaties on a 100% coinsurance with funds withheld basis to RGBM (RGBM Agreement). The statutory reserve credit was supported by a letter of credit (RGBM LOC) issued to RGBM by a highly rated bank for the benefit of the Company. In June 2021, RGBM became a reciprocal reinsurer under Nebraska law, allowing it to reinsure business ceded to it from the Company without the need to post collateral. Effective July 1, 2021, the RGBM Agreement was amended to remove RGBM's obligation to provide the RGBM LOC and the RGBM LOC was terminated on July 16, 2021. In addition, the RGBM Agreement was modified from a 100% coinsurance with funds withheld to a 100% coinsurance agreement. In connection with the RGBM LOC, Pacific LifeCorp provided a guarantee to the bank for certain obligations under the letter of credit reimbursement agreement, which was terminated in August 2021. Pacific LifeCorp continues to have a capital maintenance agreement with RGBM.

2. Assumed Affiliated Reinsurance

The Company has reinsurance agreements with PLRL through which the Company provides two longevity reinsurance solutions. Assumed premiums related to the protection of longevity risk associated with individual annuities and pension schemes by the Company amounted to $72 million during the year ended December 31, 2021. Assumed premiums related to the protection of asset, interest rate and longevity risk associated with pension schemes by the Company amounted to $1,675 million during the year ended December 31, 2021.

NOTES TO FINANCIAL STATEMENTS

3. Other disclosure:

The Company is working with borrowers who are experiencing financial difficulty as a direct result of the COVID-19 pandemic. When necessary, the Company is providing loan modifications to assist borrowers with their present circumstances. These loans are accruing interest and are classified as current when performing under the terms of the modified loan agreement. On April 7, 2020, a group of banking agencies issued an Interagency Statement that offers practical expedients for evaluating whether loan modifications that occur in response to COVID-19 are troubled debt restructures (TDR) consistent with the CARES Act. The Consolidated Appropriations Act, signed into law on December 27, 2020 extended the relief offered in the CARES Act through January 1, 2022 and clarified that insurance companies are covered under the CARES Act. The Company's loan modifications will fall within the guidance of either the April 7, 2020 Interagency Statement or the CARES Act, both as adopted by the NAIC under INT 20-03, and do not qualify as TDRs. As of December 31, 2021, mortgage loans with a total book value of $916 million are in a forbearance period where the Company has provided loan modifications with principal and/or interest payment relief and these mortgage loans do not qualify as TDRs.

Economic and capital market uncertainties have arisen as a result of the spread of COVID-19. The impact of COVID-19 on the Company is constantly evolving and its future effects are uncertain and cannot be reasonably estimated as of the date of this filing. Interest rates, credit spreads and equity market levels have had the most significant effect on the Company's financial statements. COVID-19 related claims have not been material for the years ended December 31, 2021 and 2020. The Company continues to actively monitor direct and indirect impacts of the pandemic on its financial statements, especially in relation to claims and the investments portfolio.

The Company has assumed and ceded reinsurance contracts in place with a reinsurer whose financial stability has deteriorated. In March 2019, the reinsurer's domiciliary state regulator issued a rehabilitation and injunction order, in which the regulator shall conduct and continue business of the reinsurer. The Company recorded an immaterial impairment, and the Company does not expect the financial deterioration of the reinsurer to have a material adverse effect on the Company's financial statements as of December 31, 2021.

The Company is the owner and beneficiary of life insurance policies captured under SSAP No. 21, *Other Admitted Asset*s, included in Page 2, Line 25 - Aggregate write-ins for other than invested assets at their cash surrender values. See Note 21.I.

As of December 31, 2021, the Company had $1.9 billion and $65 million of outstanding contractual obligations to acquire private placement securities for the General Account and Separate Account, respectively. As of December 31, 2021, the Company had $0.8 billion of outstanding mortgage loan commitments in the General Account which were primarily advances for construction loans.

The Company recognized in net investment income prepayment income of $30 million from early pay off mortgage loans.

D. The Company did not have any business interruption insurance recoveries.

E. The Company did not have unused state tax credits.

F. Subprime-Mortgage-Related Risk Exposure:

1. Subprime mortgage lending is the origination of residential mortgage loans to customers with weak credit profiles. Alt-A mortgage lending is the origination of residential mortgage loans to customers who have good credit ratings, but have limited documentation for their source of income or some other standard input used to underwrite the mortgage loan. The greater use of affordable mortgage products and relaxed underwriting standards by some originators for these loans led to higher delinquency and loss rates, especially within the 2007 and 2006 vintage years.

The Company has exposure to subprime and Alt-A residential loans through direct purchases of residential mortgage-backed securities (RMBS).The Company manages the exposure to subprime securities by purchasing highly rated tranches with significant subordination and focusing on underlying collateral with vintage years of 2005 and prior. Exposure to Alt-A securities is managed by investing in super senior and senior tranches with significant subordination. These securities were highly rated at purchase.

2. The Company did not have direct exposure to subprime mortgage loans.

G. Retained Assets

1. The Company pays death benefit claims in one lump sum, unless otherwise requested by the policy beneficiary. This is specifically stated on the Company's claim form. For policy beneficiaries who do not wish to receive the death benefit in one lump sum, the Company has a Retained Asset Account (RAA) available as a settlement option, which is listed on the claim form. The RAA is a draft account established in the beneficiary's name where drafts can be written against the account at any time for amounts over $250. The RAAs earn an interest rate of at least 50% of the 30-day Commercial Paper rate, as published by Bloomberg. The interest rate may change weekly. The total liability was $5 million as of December 31, 2021 and 2020, reported on Page 3 – Liabilities, Surplus and Other Funds, on Line 17 - Amounts withheld or retained by company as agent or trustee.

D. The Company did not have any certified reinsurers' rating downgraded or status subject to revocation.

E-F. The Company did not have reinsurance of variable annuity contracts with affiliated captive reinsurers.

NOTES TO FINANCIAL STATEMENTS

G. Ceding Entities that Utilize Captives Reinsurers to Assume Reserves Subject to the XXX/AXXX Captive Framework

1. The Company did not have any risk-based capital shortfalls per the RBC XXX/AXXX Captive Reinsurance Consolidated Exhibit.

2. The Company did not have any non-zero Primary Security Shortfalls per the RBC XXX/AXXX Reinsurance Primary Security Shortfall by Cession Exhibit.

H. The Company does not have any reinsurance contracts that includes provisions which limit the reinsurer's assumption of significant risks or results in delay of payment.

24. RETROSPECTIVELY RATED CONTRACTS & CONTRACTS SUBJECT TO REDETERMINATION

A-C. The Company did not write retrospectively rated contracts or contracts subject to redetermination.

D. The Company had no medical loss ratio rebates required by the Public Health Service Act.

E. The Company did not write any accident and health insurance premiums that is subject to the Affordable Care Act risk-sharing provisions.

25. CHANGE IN INCURRED LOSSES AND LOSS ADJUSTMENT EXPENSES

A. As of December 31, 2021 and 2020, there were $16 million and $17 million, respectively, in aggregate reserves for accident and health contracts.

B. There were no significant changes in methodology or assumptions of the reserves.

26. INTERCOMPANY POOLING ARRANGEMENTS

The Company does not participate in any intercompany pooling arrangements.

27. STRUCTURED SETTLEMENTS

The Company had no structured settlements.

28. HEALTH CARE RECEIVABLES

The Company had no health care receivables.

29. PARTICIPATING POLICIES

Premiums under ordinary insurance, group insurance and group annuity participating policies were $7 million, or 0.16% of total ordinary insurance, group insurance and group annuity premiums earned. The Company accounts for its policyholder dividends based upon dividend formulas approved by the Company's Board of Directors. The Company paid dividends in the amount of $8 million to policyholders and did not allocate any additional income to such policyholders.

30. PREMIUM DEFICIENCY RESERVES

The Company had no premium deficiency reserves for accident and health contracts and property and casualty contracts.

31. RESERVES FOR LIFE CONTRACTS AND ANNUITY CONTRACTS

1. The Company waives deduction of deferred fractional premium upon death of insured. The Company does not return any portion of the final premium for periods beyond the date of death. Continuous or modal premium assumptions are used for all reserves. All reserves are equal to the greater of the computed reserve and surrender value or, on certain products, a higher alternative comparison value.

2. For traditional policies with a flat extra premium, the reserve consists of the regular standard reserve plus 50% of such extra premium. For traditional policies with a substandard rating, the reserve consists of the regular standard reserve plus an extra reserve based on an appropriate multiple of the valuation mortality table. For other policies with a substandard rating or flat extra, mean reserves are based on an appropriate multiple of or addition to the valuation mortality table.

3. The Company had $20.3 billion of insurance in force for which gross premiums are less than the net premiums according to the valuation standard set by the State of Nebraska.

4. For traditional policies, tabular interest, tabular less actual reserve released, and tabular cost have been determined by formula as described in the instructions for Page 7. For non-traditional universal life type policies, the tabular interest and tabular cost are based on the actual interest credited to and monthly deductions from the policies. For some deferred annuity policies and some immediate payout policies, tabular interest was calculated using basic data.

5. The tabular interest on deposit funds not involving life contingencies has been determined from actual interest credited to deposits.

6. The Components for Other Reserve Changes (Page 7, Line 7):

35. SEPARATE ACCOUNTS

A. Separate Account Activity

1. The Company utilizes Separate Accounts to record and account for assets and liabilities related to variable annuities, variable universal life and group annuities. The liabilities consist of reserves established to meet withdrawal and future benefit payment contractual provisions. Investment risk associated with market value changes are generally borne by the contract holders, except to the extent of the minimum guarantees made by the Company with respect to certain Separate Accounts.

2. In accordance with the products recorded within the Separate Accounts, some assets are considered legally insulated whereas others are not legally insulated from the General Account. The legal insulation of the separate account assets prevents such assets from being generally available to satisfy claims resulting from the General Account.

   As of December 31, 2021 and December 31, 2020, the Company's Separate Account statement included legally insulated assets of $70.4 billion and $63.3 billion, respectively. The assets legally insulated and not legally insulated from the General Account as of December 31, 2021 are attributed to the following products:

Product	Legally Insulated Assets	Separate Account Assets (Not Legally Insulated)
Variable Annuities	$56,300,168,700	$0
Variable Universal Life	11,472,110,392	0
Group Annuities	2,669,719,936	0
Total	$70,441,999,028	$0

3. In accordance with the products recorded within the Separate Account, some separate account liabilities are guaranteed by the General Account. In accordance with guarantees provided, if the investment proceeds are insufficient to cover the rate of return guaranteed for the product, the policyholder proceeds will be remitted by the General Account.

   To compensate the General Account for the risk taken, the Separate Account paid risk charges as follows for the year ended December 31, 2021 and for the prior four years:

   a. 2021 $347,294,619
   b. 2020 $299,960,404
   c. 2019 $293,453,413
   d. 2018 $302,786,753
   e. 2017 $316,593,697

   As of December 31, 2021, the General Account of the Company had paid $10 million toward the Separate Account guarantees. Payments for the preceding four years ended December 31, 2020, 2019, 2018 and 2017 these amounts were $15 million, $14 million, $11 million and $12 million, respectively.

4. The Company does not engage in securities lending transactions within the Separate Account.

NOTES TO FINANCIAL STATEMENTS

B. General Nature and Characteristics of Separate Accounts Business:

The Company has Separate Accounts with guarantees comprised of the group annuities business where the General Account guarantees annuity payments if the Separate Accounts is unable to do so. Assets of the group annuities business are carried at amortized cost and the Company establishes an AVR as required. The Company's Separate Accounts without guarantees consist of the variable annuities and variable universal life businesses where the assets of these accounts are carried at fair value.

Information regarding the Separate Accounts of the Company is as follows:
